Manesht I am currently reading

Cormen's famous Introduction to

Algorithms book. However, I do not

have a resource where I can verify

my solutions to the exercises. I've

tried to find something on Google,

but everything I find is for the 2nd

edition whereas I have the 3rd.

Some problems are similar, but

some aren't. I'd like to have a

solutions manual for this specific

... The first edition of Introduction to Algorithms was published in 1990, the second edition came out in 2001, and the third edition appeared in 2009. A printing for a given edition occurs when the publisher needs to manufacture more copies.

The site itself is available in English, German, French, Italian, and Portuguese, and the catalog includes books in all languages.

There's a heavy bias towards English-language works and translations, but the same is true of all the ebook download sites we've looked at here.
