Skeletal Muscular And Integumentary

Systems Integumentary, Skeletal,
and Muscular Systems The
construction of the tissues of the
body involves developmental
phenomena at two levels of
organization. One is the level of
individual cells, in which the cells
that make up a tissue undergo
increasing specialization through a
process called cytodifferentiation
(see discussion of restriction,
determination, and differentiation, [
p. 85]). Integumentary, Skeletal,
